Every slide in this deck takes its colours and type from one Vellum theme

A PowerPoint template with ten layouts, figures from the Vellum gallery and native charts

Vellum example deck · A. Kaminas · 12 October 2026

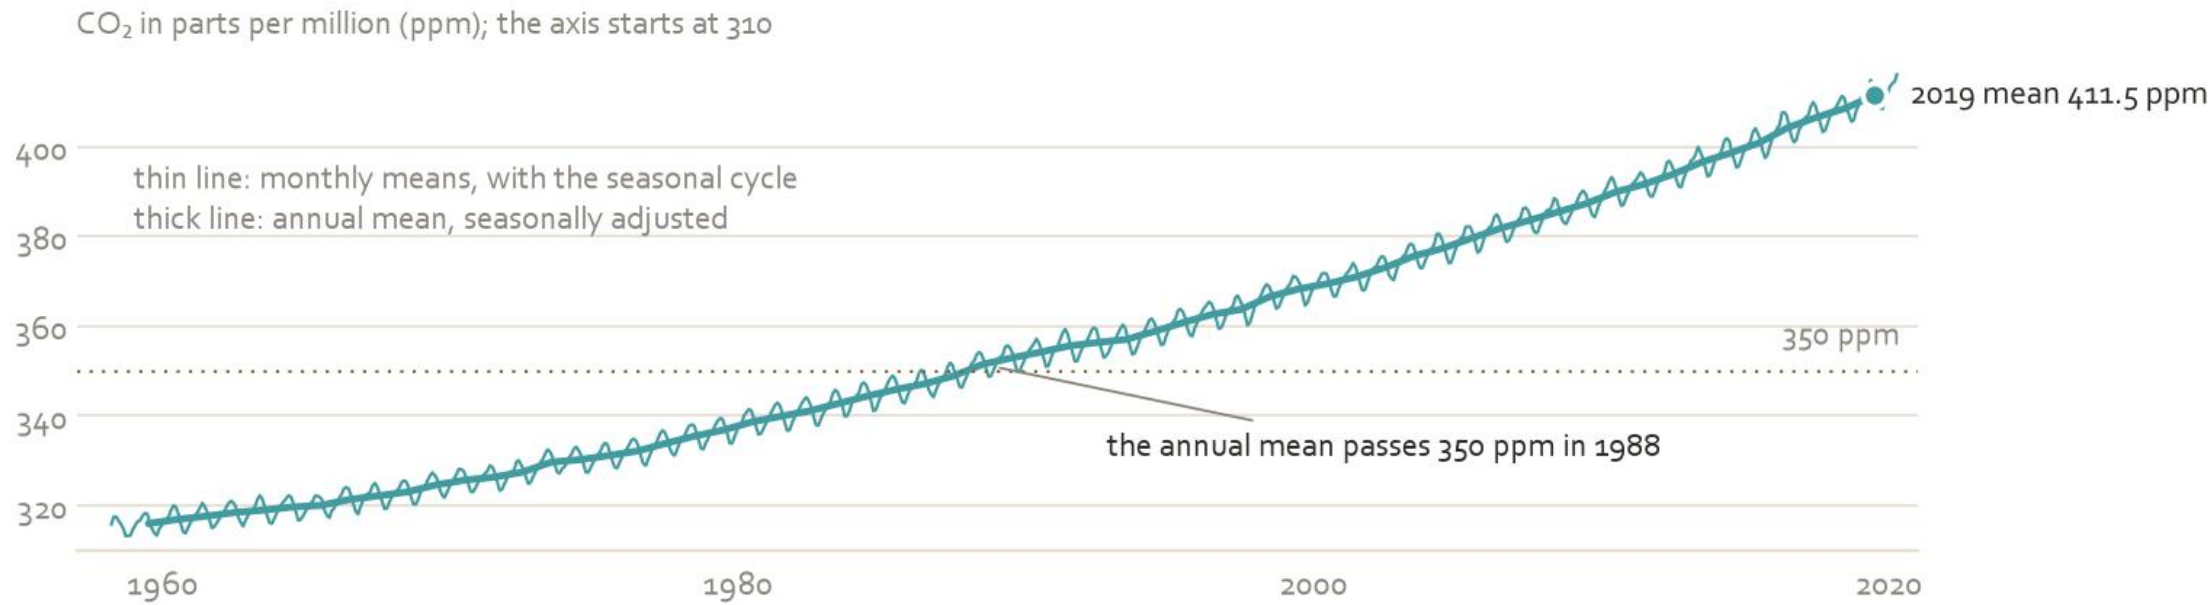

01

Figures from the gallery

PNG twins from matplotlib in picture placeholders; the dark deck takes the dark twins

Carbon dioxide at Mauna Loa rose in every year from 1959 to 2019, by 96 ppm in all

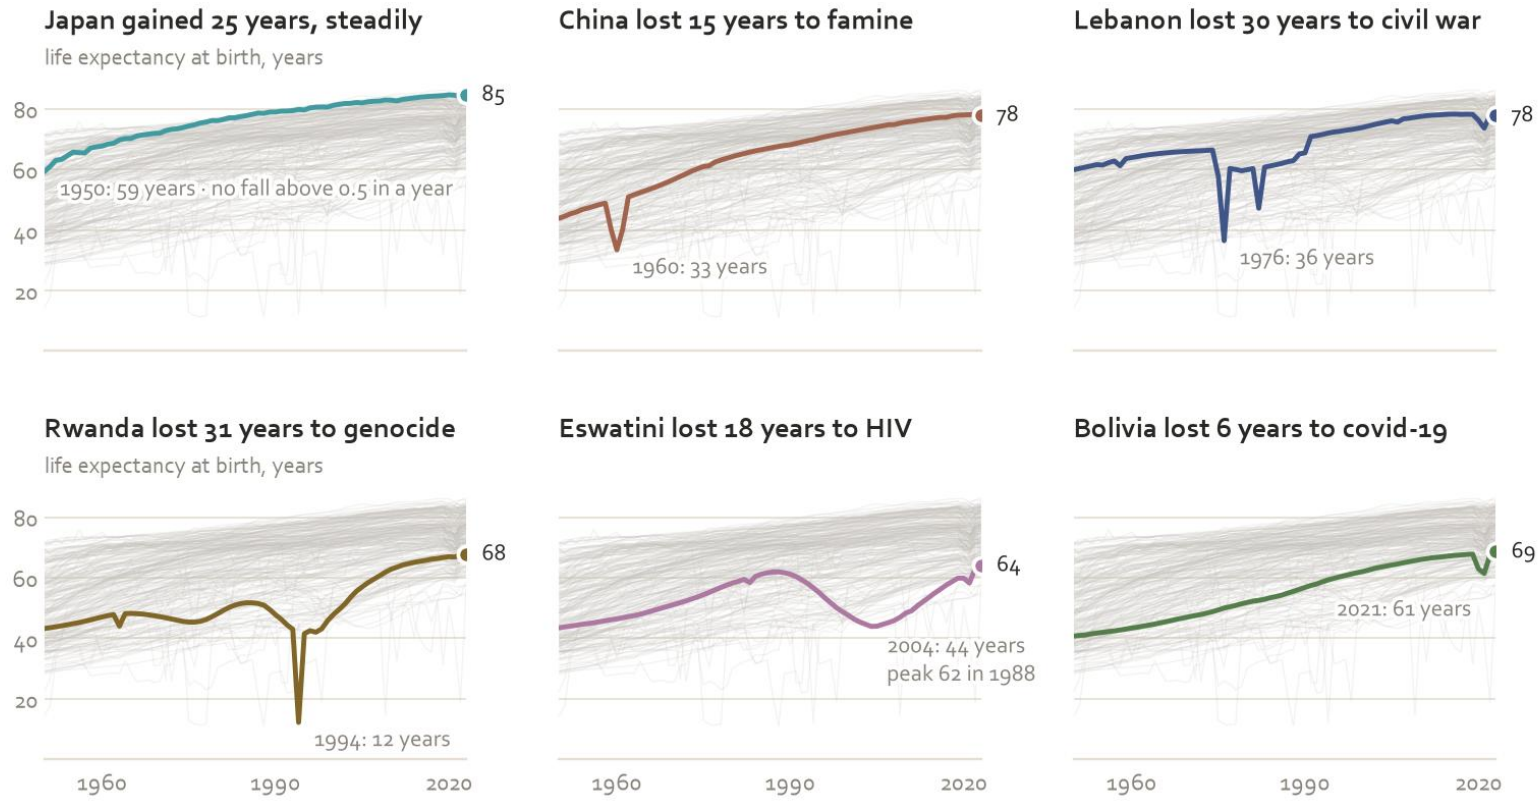

Monthly mean CO_2, March 1958 to April 2020

Data: NOAA GML and Scripps, via vega-datasets 2.8.0 · co2_keeling.py · git 4c16514-dirty

Life expectancy rose in all 236 countries since 1950, but the trend hides collapses

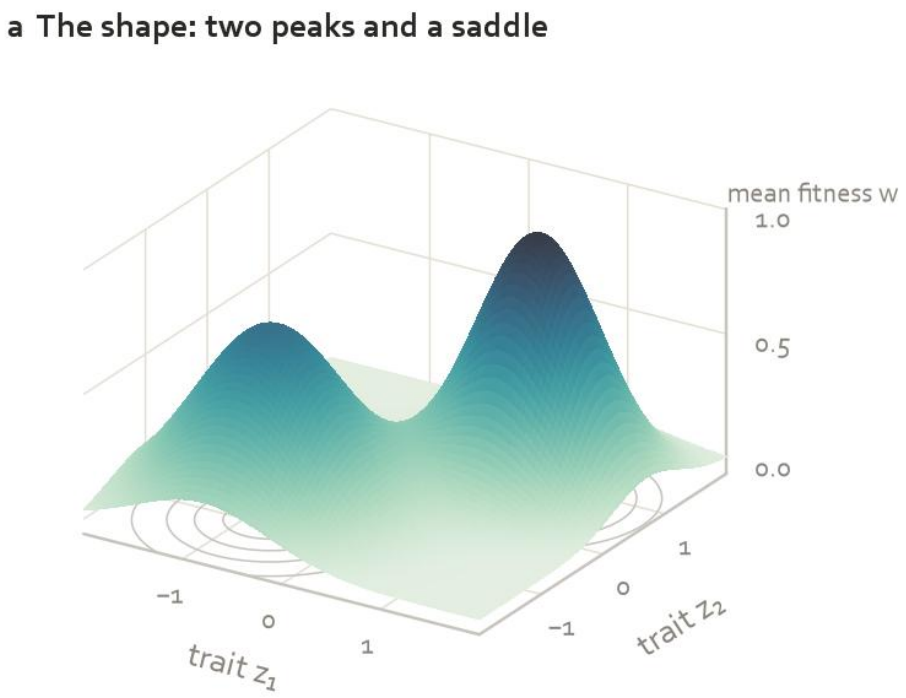

Life expectancy at birth

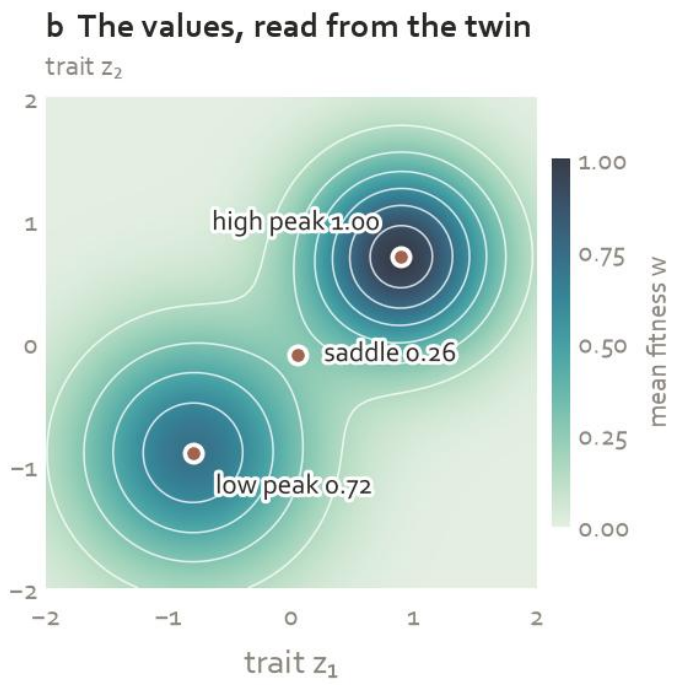

Data: UN WPP (2024), HMD (2024) and others, processed by Our World in Data · life_small_multiples.py · git 4c16514-dirty

Two adaptive peaks, 1.00 and 0.72, are joined by a saddle at w = 0.26

Illustrative landscape $w(z_1, z_2)$ · the same gradient and limits in both panels

The shape: orthographic view, elevation 24°, azimuth −58°

The values: the same surface as a heat map

Analytic function landscape(z1, z2) in _common.py, illustrative · landscape_3d.py · git 4c16514-dirty

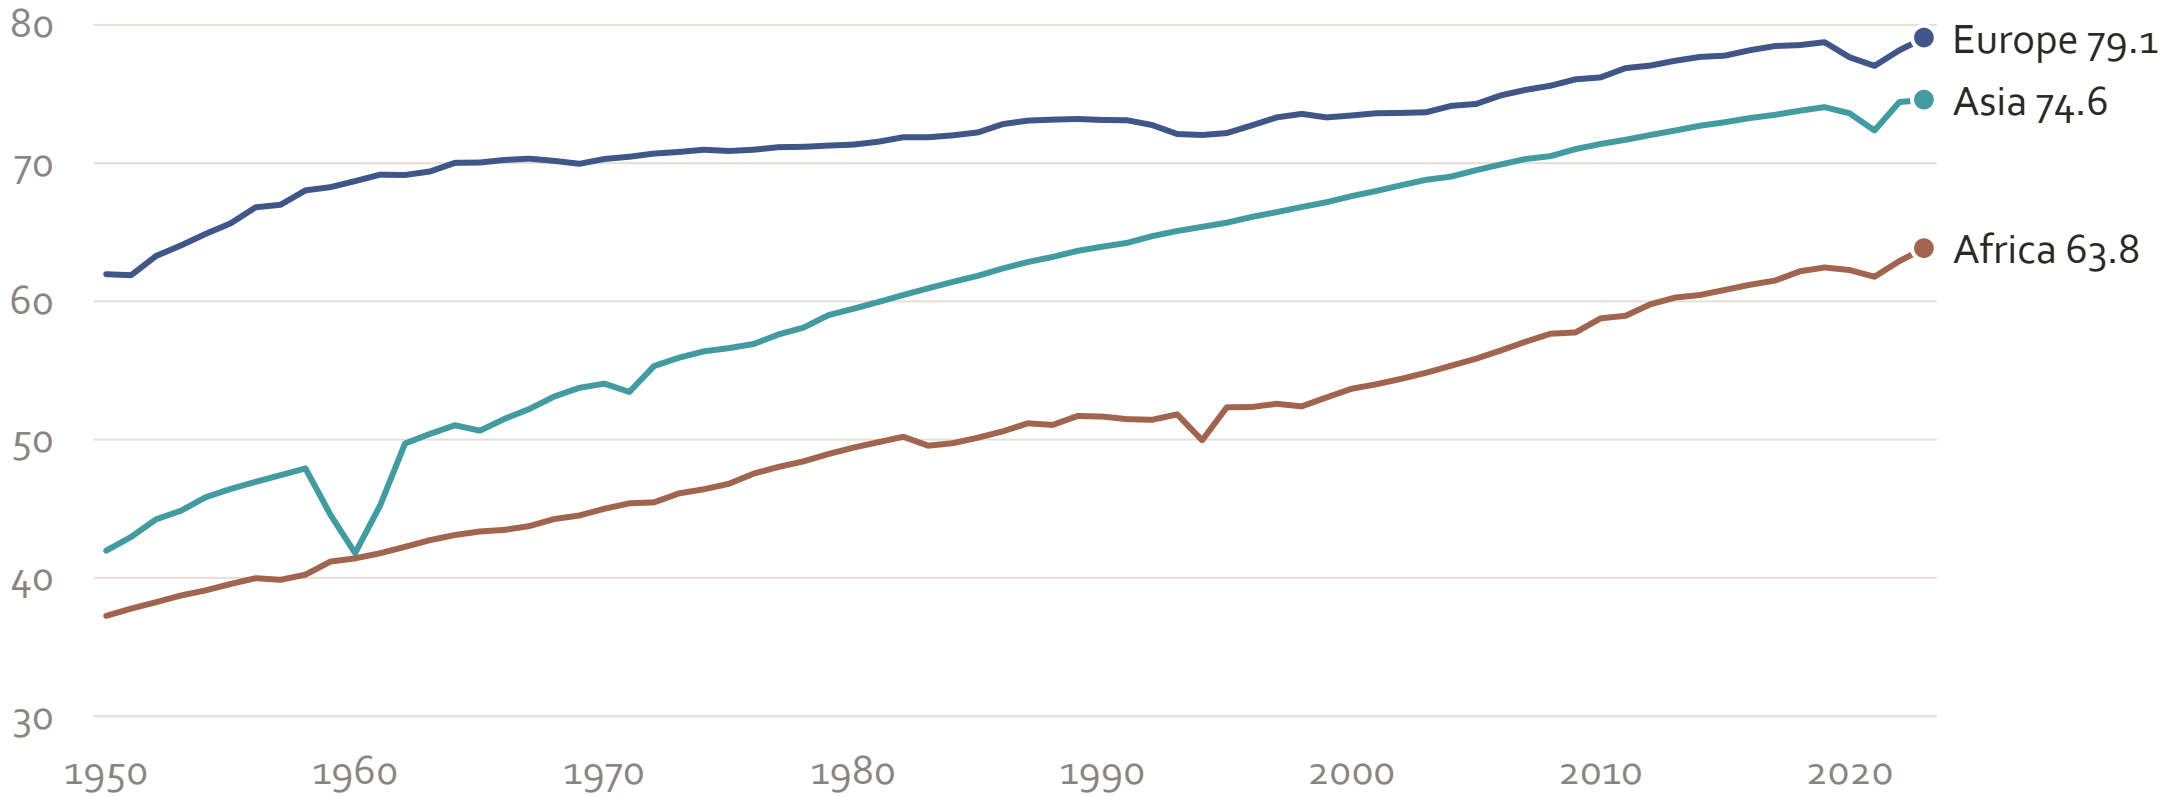

02

Native charts, numbers and tables

Drawn by python-pptx in the theme’s colours and fonts, and editable in PowerPoint

Since 1950 life expectancy rose by 33 years in Asia, 27 in Africa and 17 in Europe

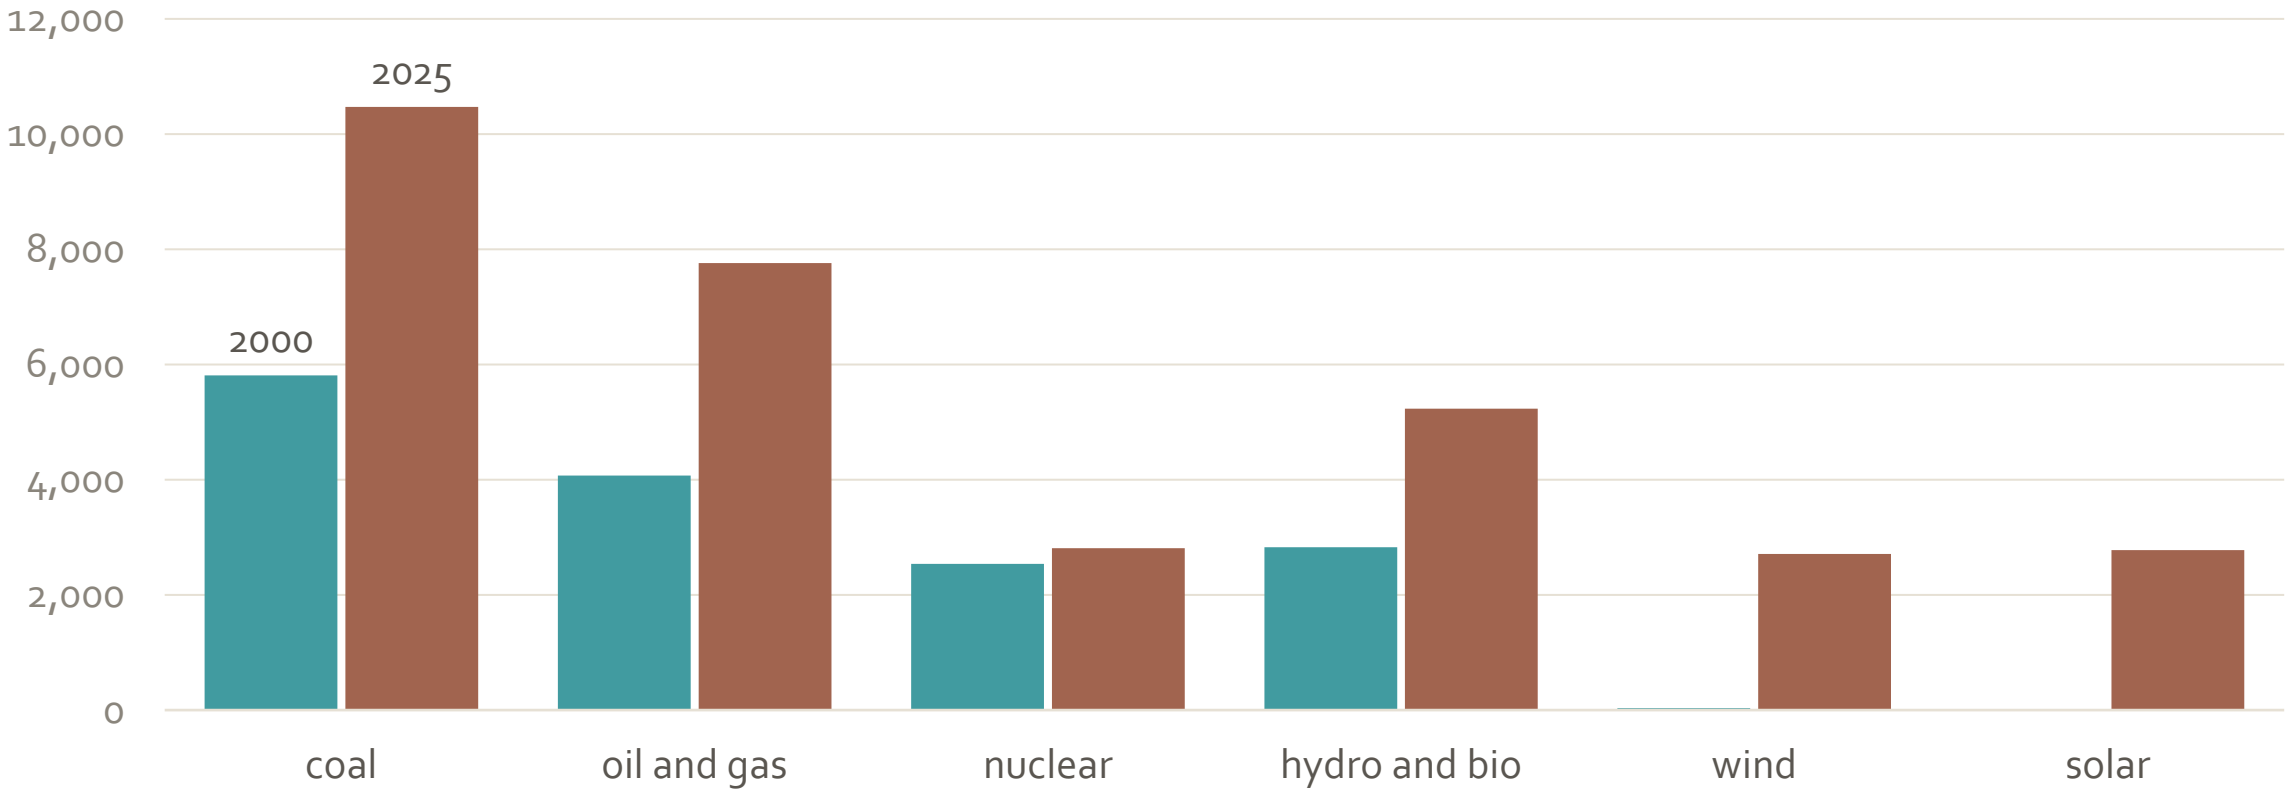

life expectancy at birth, years

Data: UN World Population Prospects (2024), processed by Our World in Data, CC BY 4.0 · make_pptx.py · git 4c16514-dirty

From 2000 to 2025 wind and solar added 5,460 TWh, more than coal's 4,663 TWh

world electricity generation by source, TWh

Data: Ember (2026) and Energy Institute (2025), via Our World in Data, CC BY 4.0 · make_pptx.py · git 4c16514-dirty

In 2025 low-carbon sources made 42.6 % of world electricity

42.6 %

of world electricity generation in 2025

up from 35.3 % in 2000

In 2025 low-carbon sources added 883 TWh, more than the 842 TWh by which generation grew, so fossil generation fell by 41 TWh.

The life-expectancy series covers 236 countries and territories over 74 years

Period life expectancy at birth, 1950–2023

236

countries and territories

17,464 country-years in all

74

years of annual estimates

1950 to 2023, one value a year

–1.7

years, the world's fall from 2019 to 2021

the deepest since 1959–60

From 2019 to 2021 life expectancy fell by 0.1 years in Oceania and by 3.4 in Latin America and the Caribbean

Period life expectancy at birth by UN region, years · sorted by the fall

UN region	2019	2021	2023	fall, 2019–21
Latin America and the Caribbean	75.3	71.8	75.7	−3.4
Northern America	79.3	76.9	79.6	−2.3
Europe	78.8	77.0	79.1	−1.7
Asia	74.0	72.4	74.6	−1.7
Africa	62.4	61.8	63.8	−0.7
Oceania	78.6	78.5	79.1	−0.1

Every figure, chart and number here is drawn by a script from open data

Using this template in PowerPoint and Canva

PowerPoint: Home → New Slide lists the ten Vellum layouts; Design → Variants holds the theme. File → Save As → PowerPoint Template (.potx) keeps it as a template.

Theme colours: Dark 1 ink 2A2825, Light 1 surface FFFFFF, Dark 2 secondary 5A5650, Light 2 card FAF6EE; Accents 1–6, the tones in slot order: 419BA0 A1644F 415688 806629 AD78A1 567E4D.

Fonts: Palatino Linotype for headings, Corbel for body. Canva has neither by default: upload them to the Brand Kit if your licence allows, or set a similar serif and sans such as EB Garamond and Lato.

Canva: drag the .pptx into Canva or use Import file. Text, shapes, pictures and tables stay editable; check the two native charts, which may arrive as Canva charts or as pictures, and the slide numbers.

Text stays ink, secondary or muted 8A857C; the tones are for data. Every hex value of both twins is in vellum-office.tsv, ready for the Brand Kit's colours.
